# NEUROBLASTOMA RUN2CURE 2024

## WALK OR RUN FOR CHILDREN'S CANCER RESEARCH

The fun run takes place in Albert Park, with some stunning lake views. The route is easily accessible by public transport and can be achieved by all ages and abilities.

### 10KM TIMED RUN

The 10km fun run is a great opportunity to challenge your team. Whether you start a lunchtime run club or hold a series of fitness activities in the lead-up to the event, the 10km run will inspire your team to work together and achieve their goals.

### 5KM TIMED RUN

The 5km run is our most popular event and the ideal length for team members who are learning to run or want to boost their fitness. Many people find training for the 5km run gives them the confidence to pursue other physical challenges and commit to a healthier, more active lifestyle. Whether you walk together or run alone, our 5km event is a lovely way to warm up on a wintery Sunday morning.

### 3KM TIMED RUN

The 3km run is perfect for team members who want to participate but aren't up to a big physical challenge. You can sprint, jog or enjoy a casual stroll—the choice is yours. If your school age kids who want to join the fun, the 3km is a nice physical challenge they can do alone or with friends. The more people on your team, the more fun you'll have and the more funds we'll raise!

### 1KM LITTLE HEROES

The 1km Little Heroes event is for parents with children 5 and under. Run2Cure is suitable for the whole family so after individuals have completed their own challenge, they can run or walk with their child in the 1km or even 3km. Kids are encouraged to dress up as their favourite superhero, with prizes available for the best costumes.

## WHAT IS NEUROBLASTOMA?

Neuroblastoma is an aggressive form of childhood cancer that primarily affects young children under five years of age.

It kills more children under five than any other cancer, and one in three children experience long-term side effects from the treatments they endure. If the child relapses or initial life-threatening treatments don't work, families are left with very few options.

As neuroblastoma is a rare disease, it receives relatively little funding for research. Our fundraising efforts are focused on finding a cure and developing treatments that are less toxic and cause fewer side effects. Together, we can make a real difference to the lives of children with neuroblastoma.

# 5 WAYS TO GET INVOLVED & SUPPORT THE UNDER 5's

If you're looking for a way to inspire your team and make a difference, support Run2Cure 2024. You'll help us fund important research, while extending the reach of your brand across Melbourne. The event, which started in Sydney in 2013, has raised over \$1.7 million for research projects into neuroblastoma. You can help us raise a further \$250,000 to help find a cure for this aggressive disease.

## 1

### SPONSOR A RUN2CURE EVENT

Your financial contribution helps us cover event costs and make the event bigger and better each year. We offer platinum, gold, silver, bronze and supporter sponsorships ranging from \$500 to \$25,000, with a range of exciting benefits that allow you to connect with key demographics across Melbourne. We'll work in partnership with you to deliver a tailored sponsorship that will meet your business objectives and add value to your corporate social responsibility program.

## 2

### ENTER A TEAM

You only need four people to enter a team in Run2Cure, which makes it easy for businesses of all sizes to participate. Encourage your staff to team up and start training for our 3km, 5km or 10km events, or bring their family along for our fun Little Heroes 1km walk.

## 3

### HOST A CORPORATE MARQUEE

Turn Run2Cure into a social event for your company, with a corporate marquee located in Albert Gardens. Your team can meet up after the event to enjoy delicious catering and a range of family activities on offer. It's a great opportunity to network with clients and bond with staff in a relaxing, fun and inspiring atmosphere. Marquees available from just \$1000.

## 4

### DONATE A PRIZE OR SERVICE

We offer prizes each year which are awarded to race winners, as well as top fundraisers and children who have the best superhero costumes. If you have a prize or a service which may be of use on the day, please contact us. We are running a school competition for the third year running and are seeking prizes for the winning schools.

## 5

### VOLUNTEER AT RUN2CURE

We couldn't organise Run2Cure without our wonderful team of volunteers, who make sure the event runs smoothly and everyone has fun! If you have team members who would prefer to support us by volunteering on the day, or before the event, rather than running or walking in an event, we'd be happy to have them.

# CREATE POSITIVE PUBLICITY

Get direct access from your target audience. Get Significant exposure at iconic Sydney Location. Increase your brand awareness and showcase your products.

## Sponsorship Levels and Packages

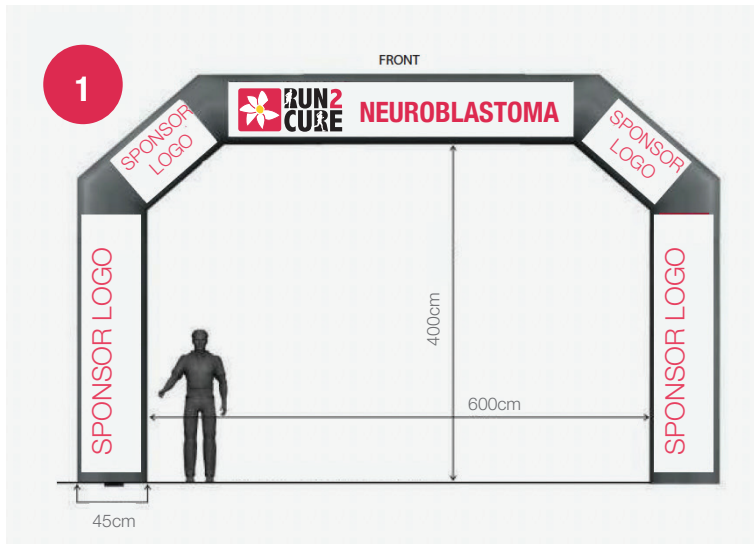

Naming rights can be negotiated for an additional fee, contact Lucy at [Lucy.Jones@nb.org.au](mailto:Lucy.Jones@nb.org.au) for more information.

1. ARCH

2. VOLUNTEER T-SHIRTS (170 REQUIRED) - additional cost

# ADDITIONAL SPONSORSHIP OPPORTUNITIES

## BOOK AN EVENT MARQUEE

Why not get a group together of employees or friends and book your own exclusive marquee. Great to have a meeting place and you can even have your own catering. Prices start from \$1500.

## ENTERTAIN THE KIDS

Delight kids and sponsor fun activities. Opportunities include a craft tent, face painters, magician and live music. Prices start from \$1000.

## SUPPORT NEUROBLASTOMA FAMILIES

Sponsor the neuroblastoma Family area where families can meet other families and bring their teams (\$500 to \$1000).

## ABOUT NEUROBLASTOMA AUSTRALIA

Neuroblastoma Australia is a registered charity set up in 2012 by two parents of children affected by neuroblastoma. It was inspired by a little girl called Sienna Hoffmann. Sienna was diagnosed with high-risk neuroblastoma at just nine months of age. Sienna was initially successful in her fight against neuroblastoma and went into remission, but she sadly relapsed and lost her battle when she was just two and a half years old.

Since 2010, we have raised more than \$2.7 million dollars for neuroblastoma research, with benefactors including the Children's Cancer Institute, Cancer Council NSW and The Kids'

Cancer Project. We're proud to donate 70% of all funds raised during Run2Cure to neuroblastoma research projects. For information on these projects visit [www.neuroblastoma.org.au](http://www.neuroblastoma.org.au)
